

28 November 1966

66LA 13937-056

**Subject:** Contract NAS 8-11733, Article II.C. and II.A.2  
"Development of Nondestructive Testing Techniques  
for Honeycomb Heat Shields," Final Summary Report,  
Submittal of:

**To:** National Aeronautical and Space Administration  
George C. Marshall Space Flight Center  
Huntsville, Alabama

**Attention:** PR-RC

**References:** (a) NASA/MSFC wire PR-RC (Weaver) received  
10 November 1966  
(b) NASA/MSFC Letter PR-RC (Weaver) dated  
2 August 1966

1. The Contractor forwards herewith as Enclosure (2), one copy of the Final Summary Report, NA-66-912, Volumes I and II, required under the subject contract. The enclosed constitutes the final published copy as approved for publication and distribution via NASA/MSFC wire of Reference (a).
2. Additional distribution is concurrently being made by the Contractor in accordance with the distribution list furnished via Reference (b) and with the remaining internal NASA requirements as denoted hereunder for a total distribution of thirty-four (34) copies.
3. As required by Article II.A.2 of the contract, included with this submittal under Enclosures (3) and (4), respectively, is one copy of NAA file document TFD-66-925 listing all reports submitted under the subject contract, together with one reproducible of all reports listed thereon.
4. These data are submitted in compliance with Paragraphs C and A.2 of Article II of the Schedule to Contract NAS 8-11733. Authorized endorsement and return to the undersigned of one copy of Enclosure (1) is requested, acknowledging the completion of all deliverable data requirements under the subject contract.
